

Job Evaluation Pay and Grading Review

UNISON would like to inform all school employed members that the proposed timescales for pay and grading for schools has not yet been determined.

As soon as UNISON have any information we will be arranging mass meetings throughout the Borough to give members the opportunity to raise their concerns and ask questions in relation to Pay and Grading.

Pay Offer 2008/09

An interim payment of 2.45% from 1st April 2008 has been agreed with the Trade Unions for November and back pay to be paid in December 2008.

This is not the final settlement as both sides are still at arbitration and we are hoping to have final details within the next two months.

As soon as we have the details we will let you know.

UNISON Needs Your Support!

In Schools it is becoming increasingly difficult to organise and represent members, as there are many workplaces without UNISON Activists.

We are aiming to recruit more Activists throughout the Borough to benefit all the members. This can range from being an active Steward representing members, a Health and Safety Representative looking after the Health and Safety needs of our members, or a Workplace Contact who could distribute mail to members in their workplace.

Full training is available to become a Steward or Health and Safety Representative with facilities time from work to attend. There are regular Activist meetings to keep you up to date with ongoing issues and full support will be given from the Branch Office.

With the onset of Pay and Grading it is important that members are kept up to date with developments and by having an Activist in every school will assist this.

If you are interested in becoming an Activist please complete the form overleaf and ask your fellow UNISON members to nominate you and return to the UNISON Office.
